Building Inspections Deck / Sign / Fence /

Solar Panel / Wind Turbine / Designated Structures

During the course of construction, the Building Inspector must be contacted at the completion of each of the following phases so that the Inspector can make these inspections in accordance with the Building By-Law.

Building Inspections

- 1) Excavation for footings when footings are formed and reinforcing in place, prior to pouring of concrete.
- 2) Building framing is completed.
- 3) Final inspection prior to use.

Note:

For Solar Panels, Wind Turbines, and Designated Structures a final report is required from your Engineer prior to Final Inspection.

Requesting Inspections

When requesting inspections, please quote Building Permit Number and allow a minimum of 48 hours' notice.

Building Inspections are booked online through your CityView account, or by contacting the Building Department 705-428-6230 ext. 232.

Please note that if an inspection is requested prematurely an additional inspection fee may be required.
